

Endodontic Specialists, PC

The easiest root canal you'll ever have

We are delighted to feature the founder of Endodontic Specialists:

Dr. Bruce R. Terry

Dr. Terry is a Fellow of both the International College of Dentists and the American College of Dentists. He is a Clinical Associate Professor in the Graduate Department of Endodontics at Temple University's Kornberg School of Dentistry, where he earned his D.M.D. and later completed his residency in endodontics. Dr. Terry earned his B.S. in Biology and Natural Science at Muhlenberg College in Allentown, PA.

“Throughout my career I’ve made it a priority to keep abreast of advances in technology. Any technique or equipment that can make endodontics more effective, longer-lasting or more comfortable allows me to offer patients a higher standard of care. After all, helping people is why I became an endodontist in the first place. In the end, my favorite thing is to hear my patients say, ‘Everything I’ve heard about root canals is a lie.’”

– Dr. Bruce R. Terry

It’s fast. It’s easy. It’s comfortable...
It’s not your father’s root canal!

In addition to his various professional memberships, Dr. Terry is past president of the Pennsylvania Dental Association and also served as past editor of the Journal of the Pennsylvania Dental Association.

A husband and father, Dr. Terry is an avid mountaineer and has summited the highest peak on each of the seven continents. Born and raised in Los Angeles, Dr. Terry loves the landscape around his home in Wayne, Pennsylvania.
